Dear Campbell County Republican Central Committee:

As a current candidate running for public office, I am wanting to listen and learn from all voters in Campbell County, not just members of the Campbell County Republican Central Committee. I will not be signing loyalty pledges with any organization. I pledge to represent the Wyoming and the United States Constitution to the best of my ability.

When aligning myself with one conservative party this makes division and we ultimately fail. The Republican party needs to fight together and not amongst ourselves.

I was sent a survey that is very similar to a pledge. I am responding with this letter to clarify my position in our county politics.

Thank you.

Respectfully,

Sarah Farmer Edwards
