WHY I WANT TO BE HERE

Concerned about the direction in which Campbell County is headed economically, my goal is to help the Board of Commissioners steward well the outflow of tax dollars, therefore eliminating the need for more inflow in the form of higher taxation throughout the community.

HOW I CAN ADD VALUE

As a Campbell County native experienced in various sectors, including oil and gas, agriculture, and education, I know where to find the common-sense experts in these fields. Drawing from the deep well of private sector expertise, I can make informed decisions that benefit the private business sector, and therefore the entire county.

WHERE I'VE BEEN

Ranch Manager
H-C Feeders
2014 – present

- For the past ten years, I've been blessed to work side by side with my Dad in his ranching operation. This position makes it possible for me to carve time out of my week to attend to the business of the Board of Commissioners, should I be appointed to serve.

Owner/Operator
Kissack Contracting, LLC
2014- present

- As a side business, I currently contract out on dirt work and fencing projects in oil and gas and ranching industries; doing so keeps the following top of mind: the cost of running a business, the burden of government regulation, the reality of profit and loss.

Music Teacher
Moorcroft Elementary
School
2010-2014

- My love for music led me to obtain a degree in music, which I utilized in my position as the elementary music teacher in Moorcroft for four years. This experience was a positive one in the classroom, but it also increased my awareness of the inefficiencies in government agencies, sparking my interest in making government operate in true business fashion.

Truck Driver
Kissack Water & Oil
1996-2006

- Growing up in the family business, I obtained my CDL at age sixteen and drove water truck throughout my high school and college careers. I have benefited by understanding how private-sector businesses truly operate; how government regulations burden the creators of new wealth; how taxation stifles industry.

Greetings to the Members of the Central Committee:

My name is Joe Kissack, and I am running for the position of the Commissioner seat recently vacated. A native resident of eastern Campbell County, I am married with three elementary-aged children. I appreciate Campbell County as a great place to live and work, with abundant employment and small business opportunities for all.

Regardless of the uncertainty in coal and oil triggered by federal intrusion, we must be better stewards of the abundant tax dollars gleaned in Campbell County. We spend too much money and take for granted the coal and oil industries. Therefore, the entities overseen by the Board of Commissioners should be decreasing, not increasing. This lends to the question: what is the role of the Campbell County government? I would submit that it is the role of the Board of Commissioners to proficiently fund the fundamental entities; it is not the role of the Board to create and run businesses, or to buy and develop land- that remains the role of the private, free market. Private business should not be forced to compete against the entities of the government.

Ultimately, I desire to represent the people of Campbell County.

Thank you for your consideration,
